Hanna's Green Seal "The Made-to-Wear Paint"

If you expect to do any painting, you are interested—you should be—in the quality of the paint to be used.

In any given job of painting, labor represents practically two-thirds, material one-third the cost.

It stands to reason that with so much expense in labor, the enduring quality of the paint is all important.

Why have the painting done unless the protection and durability of the job is sought?

How is one to determine the true value and obtain paint that may be depended upon for durability?

HANNA'S GREEN SEAL PAINT IS NOT A SECRET. This paint has the printed formula on every package.

The makers have confidence and take pride in the quality and tell the public the composition of the paint.

IS THIS OF ANY VALUE TO YOU? IT OUGHT TO BE.

Caterpillars Stop Train.

Tulsa, Okla., May 30.—A passenger train was delayed in Manford, west of here, today by millions of caterpillars clustered on a bridge. The wheels of the engine, crushing the larvae, made the track slippery and the drivers spun on the rails. Sand was ineffective, so the train was backed up and, after gathering momentum, slid through the mass of crushed worms.

The plague of caterpillars is general over eastern Oklahoma. At Court park this afternoon street cars were stopped on account of the pests and houses and trees were literally covered with them.

Can't Be Separated

Some Marion People Have Learned
How to Get Rid Of
Both.

Backache and kidney ache are twin brothers.

You can't separate them.

And you can't get rid of the backache until you cure the kidney ache.

If the kidneys are well and strong, the rest of the system is pretty sure to be in vigorous health.

Doan's Kidney Pills make strong, healthy kidneys.

William Redd, a farmer, Marion, Ky., says: "I was subject to sharp twinges through my loins when I stooped or lifted and was also troubled with a pain in my back. At night I had an acute backache and when I arose in the morning, I was very lame. I tired easily, felt dull and languid and at times was nervous. The kidney secretions were too frequent in passage and I was obliged to arise from three to four times during the night. Learning of Doan's Kidney Pills, I procured a box at Haynes & Taylor's drug store and after using them about three days, I received such great relief that I continued taking this remedy until I was cured."

COURAGE.

The soul, secured in its existence, smiles at the drawn dagger and defies its point.—Addison.

Cowards die many times before their death; The valiant never taste of death but once.

—Shakespeare.

Courage in danger is half the battle.—Plautus.

Write on your doors the saying, wise and old, "Be bold, be bold!" and everywhere "Be bold; Be not too bold!" Yet better the excess

Than the defect; better the more than less; Better like Hector in the field to die

Than like a perfumed Paris turn and fly.

—H. W. Longfellow.

DANGEROUS LIES.

That a lie which is half a truth is ever the blackest of lies; That a lie which is all a lie may be met and fought with outright.

But a lie which is part a truth is a harder matter to fight.

—Alfred Tennyson.

BUSINESS.

A big business country must have big business, and ours is the biggest business country in the world. Business depends upon the ease and quickness with which people can mingle and trade together. To stop the growth of business organizations is to stop the growth of the country. Service is the test of theories. Shall we go backward or forward? The price of the raw materials that go into wagons and agricultural implements has increased, while the price of wagons and agricultural implements has gone down, and at the same time those wagons and agricultural implements today are guaranteed. Politicians denounce big business, but ask the farmer if he is willing to go back to the blacksmith shop for his plows, harrows, wagons and reapers.—Albert J. Beveridge.

RING OUT THE OLD.

Ring out old shapes of foul disease! Ring out the narrowing lust of gold! Ring out the thousand wars of old! Ring in the thousand years of peace! Ring in the valiant man and free, The eager heart, the kindler hand! Ring out the darkness of the land! Ring in the Christ that is to be! —Alfred Tennyson.

PUBLICITY.

Anything that will promote the confidence of the investing public is a good thing for business institutions. I know of no other one thing which would trend more in this direction than for the corporations to deal frankly and fairly with their stockholders by revealing their actual financial and physical conditions. Shareholders have an unquestioned right to know how the company in which their money is invested is being conducted and how the business stands. There was a time, not long ago, when officers and directors of corporations treated such organizations almost as their personal property. That day has passed.—Secretary MacVeagh.

OBEDIENCE.

Obedience is the grandest thing in the world to begin with. I do not think the time will ever come when we shall not have something to do, because we are told to do it, without knowing why. * * * The one essential of civility was obedience.—George Macdonald.

"I Am Glad"

writes Mrs. Ethel Newlin, of Liberty Center, Ind., "that I began to take Cardui, for it has cured me, and I will never forget it. "I cannot praise Cardui too highly for what it did for me. Before I began to take it, I was very bad color, suffered great pain and weighed only 105 pounds. Now I have a good color, do not suffer and weigh 125 lbs."

Take **CARDUI**
The Woman's Tonic

Beware of strong, noxious, mineral drugs, that sink into your system, like lead to the bottom of a basin of water.

Cardui is purely vegetable and contains no poisonous minerals, or dangerous drugs.

It is perfectly safe and harmless, for use by old and young, and may be taken, as a tonic, for months, without any possible harmful effect. Try it.

HOW WE LIVE.

We live in deeds, not years; in thoughts, not breaths; In feelings, not in figures on a dial.

We should count time by heart throbs. He most lives Who thinks most, feels the noblest, acts the best.

Life's but a means unto an end, that end

Beginning, mean, and end to all things—God

—Philip James Bailey.

NEW THINGS.

I am not sure in this era of new laws, new standards and new morals whether the fact that a thing is old is a recommendation or an indictment. There is evidence both ways. But my conviction is that age may have its benefits and even things that have passed away may perhaps have been respectable. We live too much in the present, too little in the past, and I am apprehensive that we live too little in the future. Our eyes get centered on a single object, and we pursue it with an eagerness that seems like frenzy. In our passion to obtain we neglect to preserve and forget that there have been and will be other times than now.—Frank S. Black.

DEATH.

Can storied urn or animated bust Back to its mansion call the fleeting breath? Can honor's voice provoke the silent dust Or flattery soothe the dull cold ear of death? —Thomas Gray.

LITTLE THINGS.

Little drops of water, little grains of sand, Make the mighty ocean and the wondrous land. Thus the little minutes, humble though they be, Make the mighty ages of eternity. Little deeds of kindness, little words of love, Make our earth an Eden like the heaven above. —Frances S. Osgood.

NEED OF CONTROL.

What the American people have done during nearly forty years of legislation and experience is to establish a policy for the control of transportation lines and great aggregations of capital in corporate form. I maintain the wisdom and the necessity for such reasonable control. It has been adopted by the deliberative judgment of the nation and, in my opinion, has come to stay. No great movement of this kind grows among a whole people without just impelling cause. It is not the work of shallow minds or of demagogues.—Frank B. Kellogg.

PROSPERITY.

If adversity hath killed his thousands prosperity hath killed his ten thousands; therefore adversity is to be preferred. The one deceives; the other instructs; the one miserably happy, the other happily miserable, and therefore many philosophers have voluntarily sought adversity and so much commend it in their precepts.—Burton.
